

Stocked Soap Base Ingredient Listing (01/01/18)

Finished products may contain small amounts of harmless proprietary process aids. ⁽¹⁾

These agents are used to speed up process, assist with blending etc.

Clear Glycerine Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

White Glycerine Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Olive Oil Soap Ingredients

Olive Oil (Grade A extra virgin)
Palm Oil
Coconut Oil
Safflower Oil
Glycerine (kosher, or vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

Castile Soap Ingredients

Olive Oil (grade A extra virgin)
Palm Oil
Coconut Oil
Safflower Oil
Glycerine (kosher of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Goat's Milk Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Goat's Milk
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Oatmeal Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, or vegetable origin)
Purified Water
Oatmeal
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Honey Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Honey
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

Aloe Vera Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Aloe Vera Gel
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

Crystal Clear Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Coco Amidopropyl Hydroxysultaine (surfactant made from coconut oil)
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

Low Sweat White Soap Ingredients (Like Cold Process)

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Low Sweat Clear Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

Shaving Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Wheat Protein (conditioner)

Shea Butter Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Shea Butter
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Hemp Seed Oil Soap Ingredients

Olive Oil (Grade A extra virgin)
Palm Oil
Coconut Oil
Safflower Oil
Glycerine (kosher, or vegetable origin)
Hemp Seed Oil (unrefined)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

Cocoa Butter Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Cocoa Butter (unrefined)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Organic Oil Clear Glycerine Soap Ingredients

Organic Coconut Oil
Organic Palm Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

FREE Clear Soap Ingredients

Glycerine (kosher, of vegetable origin)
Purified Water
Coconut Oil
Palm Oil
Safflower Oil
Sorbitol
Sodium Hydroxide (saponifying agent)
Glyceryl Oleate (emulsifier)

Organic Oil White Glycerine Soap Ingredients

Organic Coconut Oil
Organic Palm Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Palm Free Clear Glycerine Soap Ingredients

Coconut Oil Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sodium Stearate
Sodium Myristate
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

Palm Free White Glycerine Soap Ingredients

Coconut Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sodium Stearate
Sodium Myristate
Propylene Glycol (made from vegetable glycerine)
Sorbitol Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Extra Hard Clear Glycerine Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein

Extra Hard White Glycerine Soap Ingredients

Coconut Oil
Palm Oil
Safflower Oil
Glycerine (kosher, of vegetable origin)
Purified Water
Sodium Hydroxide (saponifying agent)
Sorbitol
Propylene Glycol (made from vegetable glycerine)
Sorbitan oleate (emulsifier)
Oat protein
Titanium Dioxide (mineral whitener used in opaque soaps)

Manufacturers of Quality Soaps Since 1967

(1) As many customers have inquired about process aids, we offer the following information:

Our process aids are used in small amounts, on an as needed basis, and are not essential for product function. They are subject to change as they are constantly evolving and changing due to the availability of newer and better materials, marketplace demands, etc. In order to provide our customers with various desired features such as ease of remelting and re-batching, finished product final appearance, etc. we may or may not use small amounts of the following (or similar) materials:

Bio Propylene Glycol (made entirely from vegetable glycerine) This material is often omitted but we have also listed it as an ingredient as larger amounts are sometimes used. ****Excluded in FREE soap bases

Cocamidopropylamine Oxide (made from renewable vegetable sources) Disodium Sulfosuccinate (made from renewable vegetable sources) Cocamidopropyl Betaine (made from renewable vegetable sources)

All the above materials are biodegradable. SLS or SLES are not used.
